Event Moments : How to Introduce our self

Networking is an important piece of any job search. Preparing a professional introduction ahead of time will give you more confidence and will help you to be more successful in your networking. This is an introductory statement that states the type of job or internship you are looking for, your skills and your related experience. Communicating your goals and key points in a clear, straightforward manner is very important. Don't assume people will figure out what you want just by stating a job title or the name of a company. Once you have a professional introduction ready, you can tailor it to fit each situation.

You can use your professional introduction:

- ◆ To network at meetings, school, or social activities
- ◆ When you are introducing yourself to potential employers
- ◆ To answer the infamous "What are you doing after graduation?"

Guidelines:

- ◆ Be specific ---communicate your focus or your goals
- ◆ Make your commercial conversational and not too heavy on the content
- ◆ Single yourself out from the crowd --- let your unique skills and personality shine
- ◆ Communicate enthusiasm and motivation

What to include in your professional introduction :

- ◆ What are you looking for? (Describe a dream job, professional career field, fulfilling position)
- ◆ Recent education and relevant experience
- ◆ Areas of expertise/skills/accomplishments
- ◆ Include words that emphasize your enthusiasm
